Date Mailed: 10/08/2002

ATTACHMENT TO FILING RECEIPT

The corrected drawings received on 04/01/2002 and subsequently on 08/14/2002 have been entered into the Office records, however, a COMPLETE set of substitute drawings were not submitted. The original drawings, which have already been scanned into the electronic database, endorsed and hole-punched, that do comply with the margin requirements would have to be re-scanned with the corrected drawings. The originally submitted drawings if re-scanned will contain hole-punch marks at the top of each sheet and may interfere with the new endorsement. In the future, a complete copy of drawings should be submitted so that the scanned images (for publication purposes) will be blemish free.

PLEASE FAX ME FIGURES 2 and 4-7. My personal fax number is **(703) 746-6603**. When I receive the figures, I will have the complete set of drawings that meet the margin requirements scanned into the PTO database.

Sincerely,

A handwritten signature in cursive script, appearing to read "T Stokes", is written over the typed name.

Ms. Tushombe Stokes
